### Product information:

The CSD560 series is a series of Ultra-slim CAT6A U/UTP cables, which come available in a wide variety of lengths and colours. They offer reliable interconnections in various applications, ranging from general-purpose office computer systems to digital AV network systems. The ultra-slim construction with an outer diameter of only Ø 3.2 mm offers an elegant solution for office patch usage while guaranteeing the best possible space saving and airflow in rack applications. The compact and snagless connector design and numerous variants and colours offer reliable connections and a clear overview when wiring racks for various applications or protocols.
