KB600

Blind bolt M6 x 10 mm + Flange nut / black phosphated

Product information:

These black phosphated M6 x 10 mm blind bolts with flange nuts are sold in packs of 100 pcs. These are the same bolts and nuts as used in the OPR series racks.

Besides replacing lost bolts, they can also be used to mount L-rails in a clean way in OPRs. These are often built into furniture and then it is not useful if a cage nut and bolt protrude from the outside of the L-rails.

Variants:

- KB600/B - Black version - 100 PCS

We reserve the right to change specifications without notice, this is part of our policy to continually improve our products.
